

**MAASS RINGS & FORGE LLC**  
MAASS GLOBAL GROUP

We are pleased to introduce our forged product line of rolled rings, discs, and blocks. Our current ring sizes range from 19"- 118" Outside Diameter, 10"- 110" Inside Diameter, and 2.5"- 26" Thickness (height). Weight capacity ranges from 200 lbs. – 8,400 lbs. We also offer custom profiled or contoured ring products, such as flange forgings, that provide a more cost effective weight along with less machining time. We look forward to your inquiry. For more information please contact:
