SanCo

Custom Parts. Proven Manufacturers.

CUSTOM COMPONENTS

Proven Manufacturers.
Direct Representation.

Custom components. Simplified.

Family-owned and Texas-based, SanCo directly represents proven manufacturers of custom components. With 25+ years of experience, we stay involved from quoting through production—keeping communication clear and your projects moving.

The right fit.

Manufacturing capabilities matched to your part, material, volume and cost goals.

A direct connection.

Established factory relationships. Practical answers. Fewer people to chase.

Real follow-through.

Quote coordination, production updates and help resolving issues along the way.

Custom components. Proven capabilities.

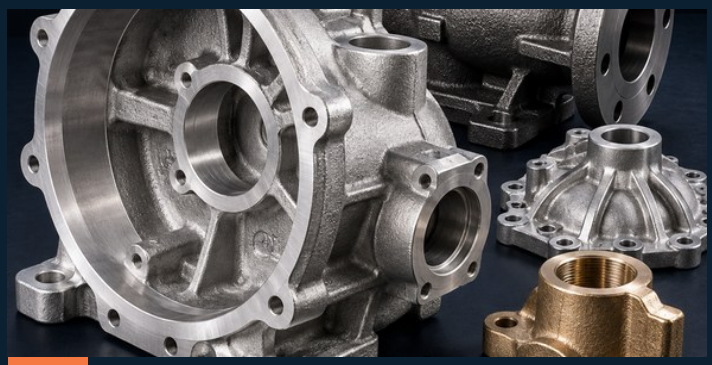

Stampings, castings, machining and forgings—matched to your requirements.

Stampings & fabrication

WRICO | STAMPING • FABRICATION • ASSEMBLY

- 100-100,000 pieces; 20-400 ton presses
- Laser cutting, forming and robotic welding
- Tooling, hardware insertion and assemblies

Castings & powder metal

OUNCES TO 50,000 LB | ALLOY & FOUNDRY DEPENDENT

- Gray iron to 50,000 lb; ductile iron to 20,000 lb
- Steel to 10,000 lb; bronze/brass to 6,000 lb
- Aluminum to 1,000 lb; sand, investment, die & permanent mold
- Powder metal, metal injection molding (MIM) & machining

Machining & gear cutting

CNC • SCREW • SWISS

- Multi-axis machining, including 5-axis
- Round bar to 3.5 in.; chuck loading to 10 in.
- Milling, turning and custom gears

Forgings

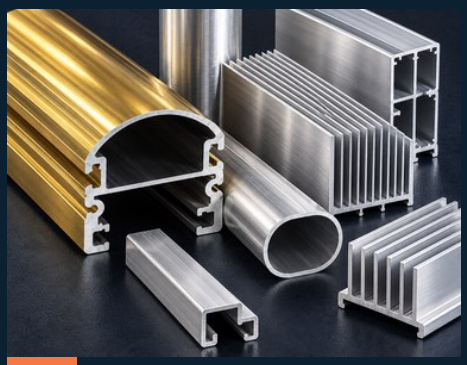

HAMMER & PRESS FORGINGS

- Hammer: carbon/alloy steel, 0.25-45 lb
- Press: carbon/alloy steel, 1.5-40 lb
- Heat treat, machining and finishing

WRICO A Griffiths Company · Alger Precision Machining, LLC · Martin · Hawver Aluminum Foundry Inc. · DePere · HMC · DAF Dameron · DAMERON ALLOY FOUNDRIES SINCE 1946 · Powder Metallurgy Company · PT Couplings and More

More capabilities. More possibilities.

More options for your components, assemblies and finished products.

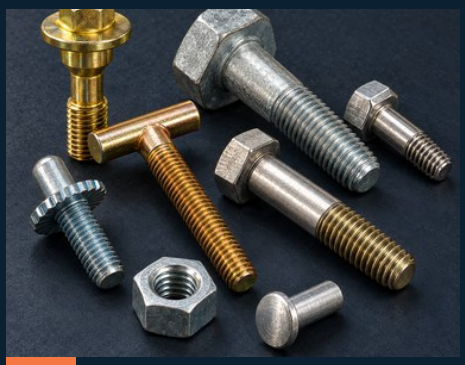

Aluminum extrusions

Custom profiles, heat sinks and tubing. Machining, cutting and finishing.

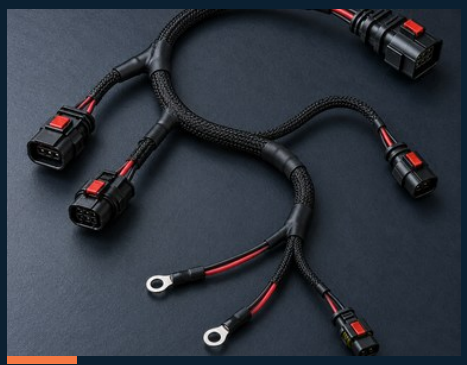

Plastics & rubber

Injection molding: press capacity to 1,500 tons; extrusion. Engineered plastics, silicone and secondary operations.

Fasteners & hardware

Cold-headed screws, bolts and studs. To 5/8 in. diameter × 8 in. long. Multiple metals and alloys.

Wire harnesses

Custom harnesses, cable and battery assemblies. Prototype through production.

LED display lighting

Shelf, edge and illuminated displays. UL options with supporting fabrication.

Assembly & finishing

Welding, hardware insertion, coatings and finished subassemblies.

WHAT OUR CUSTOMERS SAY

“Great communication and quick to solve any problem that arises.”

Danny Gray
Senior Buyer
Emerson Process Management

“SanCo makes it happen and they make my job easier.”

Stephanie Wallace
Global Supply Chain Manager
Gardner Denver Thomas

Your next challenge. Our kind of work.

Let’s talk.

Send a drawing or discuss an upcoming project.
